To whom it may concern: Re: Denver TV for Southwest Colorado

I find it ridiculous that I do not have a choice of what TV stations I can watch. Not only is this government bureaucracy run amok, it is also disturbing that Nielsen's has more power than the FCC or Congress!

I live in Colorado. My governor is not the governor of New Mexico. My legislature is not the legislature in New Mexico. I have a second home in Denver. I have kids and grandkids in Denver and Boulder. I do not care one whit about what goes on in New Mexico, but I have great concern about what goes on in Colorado. Yet I am uninformed about happenings in my own state.

At a minimum, I should be able to choose via my TV carrier whether I view the Albuquerque stations or the Denver stations. As a paying customer, the choice should be mine and not that of the FCC.

Sincerely,

Steve Redding
